**1. Will you take part in a European coalition against the TTIP if called?**

**YES**

Comments (optional)

*I have already signed a declaration to this effect*

**2. Will you support a Convention of the Eurozone Heads of State for European Peace and Independence?**

**NO**

Comments (optional)

*I do not know much about this at the moment, you left me with yes or no answer. If elected I will inform myself about the Ukraine and about what is going on and then make an informed decision. Currently I would abstain from any decision that I am not informed about. I also favour not getting involved so as not to escalate any crisis. Peace can often be peddled as a pretext to war. I do not favour war as a solution to anything.*

**3. Do you support the removal of all non-European armed forces from European territory, and especially the removal of US nuclear weapons?**

**YES**

Comments (optional)

*Totally support this.*

**4. Do you support the call to disable the EEAS or put it under political control?**

**YES**

Comments (optional)

**5. Do you support Newropeans' proposal that any major change of community treaties, especially any enlargement, can only be done through a trans-European referendum?**

**YES**

Comments (optional)

**6. Do you support Newropeans' proposal to build up a democratic Euroland?**

**NO**

Comments (optional)

*Again I do not know enough about this proposal. If elected I would educate myself about it and decide accordingly. Fís Nua supports a steady state economic model and as such neither the old system or the new one might meet our approval.*
